**Subject:** Tonight's Town Council letter

Hi Andrea,

Please give copies of this email to the town planner, all council members and all planning commission members. I hope they will see it before the meeting tonight. Thanks

Dear La Conner Leaders,

My name is Breta Malcolm. My home of 22 years is on Caledonia Street.

Several issues are disturbing me.

1.the chain link fence around the MooreClark property has taken away my access to the waterfront walk into town. How long will that go on? Why?

2.There are two tiny houses seeking permits to get variances to build. Where exactly? Please deny if they are not within current lot limits.

3.The new construction at the base of SnapDragon Hill seems to compromise the stability of the site endangering the homes above and below. Please make the survey and environmental studies public.

4.How will the developer provide adequate parking for residents, as required by code?

Please respond to my concerns in writing.

Sincerely,

Breta Malcolm
