Subject: For the Town Council meeting

Good Morning Danielle:

I will be unable to attend the Town Council meeting this evening. I would like my comments included either in the packets or entered into the record under comments from the community.

Thanks so Much.

Marna

Town Council:

In this time of so much uncertainty I would hope that the time is taken to examine what is best for the Town regarding police and safety issues. Five years seems way to excessive to sign a contract with the Sheriff's Department and a 10% increase seems outrageous on top of funding a full time Code enforcer with a car. (If my memory is correct when the last contract was signed it was to include more presence and somehow that kinda went away).

If we have more presence with our own employee(s) split shifts(two or more part timers) for the day and the evening plus more hours during the really dark days of winter and a contract with the Sheriff's department for "serious" incidents for a year or two, would that not give us time to see if this might be a better approach and not commit to a five year contract. With Covid, have we not learned that the old ways need to be looked at and new creative ways need to be tried?

Thank You for time.
